

# Managing PCI Compliance with CampusGuard Central®

CampusGuard Central® 2.0, our dynamic customer compliance portal, was created specifically for campus and community-based organizations. Designed to offer a comprehensive view of your entire enterprise, Central gives you the tools you need to assess, track, and document your PCI DSS compliance across multiple campuses, divisions, and departments.

Effectively managing numerous merchants and SAQs within an organization with diverse structures and operational procedures can quickly become a demanding task. Fortunately, Central simplifies the process, making organization-wide PCI DSS compliance monitoring more efficient than ever. Our portal provides a holistic perspective of your entire enterprise, enabling you to promptly recognize and resolve compliance challenges, monitor your compliance reporting cycle in real time, and quickly summarize your overall compliance posture.

“CampusGuard has been a long term partner of Vanderbilt University Medical Center since 2016... The CampusGuard Central SAQ portal allow us to closely monitor our merchant accounts, as well as any third-party service provider and affiliate relationships.”

– Sarah Bettencourt, Associate Director-PCI Compliance,  
Vanderbilt University Medical Center

# Benefits of CG Central

## 1 Customizable Users & Groups

- Add users based on roles and configurable by campus, department, or other organizational structure with up to four levels of role-based access.
- Easily group merchants by department.
- Maintain accurate merchant inventory details, including the optional use of five customizable fields to track data that is important to you.

## 2 All-In-One Dashboard

- Seamlessly integrate scanning requests, tracking, and reporting.
- Easily monitor SAQ status and action items via the role-based dashboard.
- Customize the deployment options for SAQs, use of single sign-on, user notifications and reminders.

## 3 Self-Assessment Questionnaires

- Create a summarized SAQ (by bank/processor, department, and SAQ type), and more.
- Directly assign SAQs to merchants to avoid confusing questions that might land a merchant in the wrong SAQ for their environment.
- Seamlessly move between pages of the SAQ, seeing only those Requirements that are relevant to your environment.

## 4 Real-Time Reporting

- Generate an up-to-date Merchant Inventory report based on real-time data.
- Export robust reports in various formats (XLS, CSV, PDF, JSON).
- Use the Rollup feature to select and combine SAQs into a summary SAQ based on your needs (i.e. by acquirer, by department, by campus, etc.).

## 5 Resource Library & Expert Support

- Access CampusGuard's full library of templates, checklists, procedural guides, and more.
- Ask questions and receive timely support from the credentialed QSA and PCIP staff at CampusGuard through the portal.

With CampusGuard Central® 2.0, monitoring organization-wide PCI DSS compliance has never been easier. Request a free demo today!
